# About TAITRA

Founded in 1970 to help promote foreign trade, the Taiwan External Trade Development Council (TAITRA) is the foremost non-profit trade promotion organization in Taiwan. Jointly sponsored by the government, industry associations, and several commercial organizations, TAITRA assists Taiwan businesses and manufacturers with reinforcing their international competitiveness and in coping with the challenges they face in foreign markets.

Since its establishment, TAITRA has developed a well-coordinated trade promotion and information network composed of over 1,300 trained specialists stationed at its headquarters in Taipei, in five local branch offices in Taoyuan, Hsinchu, Taichung, Tainan, and Kaohsiung, as well as in over 63 representative offices around the world.

In association with its sister organizations, the Taiwan Trade Center, Inc. (TTC) and the Taipei World Trade Center (TWTC), TAITRA continues to do everything possible to adapt its trade promotion strategies to the changing international trends and conditions. TAITRA's major functions include Market Development, Strategic Marketing, Trade Information Services, Exhibitions, Convention Services, Trade Education, and TaiwanTrade (an e-Trading Hub service).

Tremendous business opportunities can be found in Taiwan's dynamic economy. Taiwan's strategic location, infrastructure and capital make the island an ideal springboard for business operations throughout Asia and the Pacific Rim. TAITRA, together with its experienced trade specialists, all stand ready to help you do business with Taiwan.

RF/Microwave connectors & Cable-Assembly

**RF/Microwave cable assemblies sourced by Nokia and Motorola**

**Tested on a 40GHz network analyzer**

By focusing our attention on end-product quality, we've become the leading manufacturer of RF and microwave connectors in Taiwan. Motorola, Nokia and Sony Ericsson come to us for their connectors, and we can apply the standards they demand to your orders too.

Our ISO 9001:2000-certified facility uses advanced CNC machinery, Schleuniger cable strippers and specialized soldering equipment. This ensures that every dimension of every cable is uniform. This high-precision manufacturing is then backed up by exhaustive QC, including testing on the most advanced 40GHz network analyzers in the industry.

Precision production and advanced testing contribute to a product acceptance nearly 1 percent higher than the industry average – 99.98 percent. We create over 1 million connectors monthly, but minimum orders of just 100 pieces are still acceptable. To get custom samples in just 15 days, visit us online now.
